

Lake of the Ozarks
 Regional Economic Development Council
 Quality Life. Quality Business.

Thank you for your interest in LOREDC.

We value our member investors who make it possible for us to accomplish our priorities for our communities in which we serve.

LOREDC exists successfully because of the dedication of our active members, both in investment and in action. We serve a three-county region – Camden, Morgan, and Miller counties – we know that our area is best served by a collaborative approach to economic development. In 2024, we are focusing our primary efforts on workforce development, government relations, community education, business retention and expansion, regional marketing, and continued fundraising for the implementation of our strategic plan.

We have valuable business, educational, governmental, civic, and other non-profit partners. Through those committed investments of time and money, we have been able to support and facilitate programs to enhance our regional housing efforts, address our workforce challenges, promote business expansion, and move our organizational and regional marketing efforts to the next level.

Our annual investment schedule is as follows.

- \$ 2,500 Diamond Investment**
- \$ 1,000 Platinum Investment**
- \$ 500 Gold Investment**
- \$ 250 Silver Investment**
- \$ 100 Bronze Investment**

Please consider becoming a member-investor today. As a member-investor, one representative will have voting rights in our organization, playing an active role in shaping our regional economic development efforts. As a member organization, we need engagement from your team members to push our area forward.

We understand each organization has unique budgeting requirements and we appreciate your best investment possible.

Again, thank you for your interest. We look forward to hearing back from you. Please do not hesitate to contact me if you have further questions.
